THE PHILBRICK FUND

The Philbrick Fund is now the only fund handled by the selectmen. There have been some changes in the various items and a statement of the several amounts and the income from them follows:

In town treasury, \$1,701.25 yielding $3\frac{1}{2}\%$.

In Amoskeag Savings Bank, \$1,200 yielding 5% .

This amount (\$1,200) was derived from the sale of Manhattan Beach R. R. stock.

During the year 1928 the Liberty Bond matured and this amount, \$150, is included in the amount \$1,701.25.

One fourth of the income of this fund is payable to the school district for No. 1 school, and the remainder, after paying for the care of the Philbrick cemetery, is payable to the trustees of the Philbrick-James Library.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Deerfield:

Since my services in Deerfield began with the present school year the report for the year completed in June, 1929, is of necessity statistical. However I wish to deal briefly with the present organization, buildings and equipment, and health activities.

STATISTICS FOR 1928-1929

Schools	Teachers	Boys Enrolled	Girls Enrolled	Average Membership	One-half Days in Session	One-half Days Lost	No. Pupils Not Absent or Tardy	Per Cent of Attendance	No. Tardinesses Per Pupil	Visits of Superintendent	Visits of School Board	Visits of School Nurse	Visits of Citizens and Others
Center	Mary C. Robinson	18	16	21	350	10	0	84	.8	14	3	4	29
Parade	Mary Szlosck	9	17	20	250	10	0	86	.5	12	5	7	61
Pond	Etta S. Chase	11	13	22	350	10	0	87	.3	11	3	3	48
South	Bertha R. Brown	7	6	12	350	10	0	89	.2	7	4	5	25
West	Mary B. McKinley	13	6	12	350	10	0	91	.3	10	4	4	35
Total aggregates and averages		58	58	87	350	10	0	87	.4	54	19	23	198

The cost per pupil in the elementary schools of Deerfield for the year 1928-1929 was \$87.57 compared with \$83.35 the median cost per pupil in the State. Of the 244 New Hampshire school districts arranged in the ascending order of cost, per thousand of equalized valuation for all school purposes, Deerfield stood 169th. Although the average salary of teachers in Deerfield was considerably below the average in the State, the cost per pupil above the median cost in the State was chiefly due to the necessity of maintaining two very small schools with an average membership of only twelve pupils each.

Organization

Due to the removal of pupils the school at South Deerfield was not opened for the school year of 1929-1930. In the four remaining schools the only teacher change was made at the Parade. This vacancy, caused by the withdrawal of Miss Szlosek, was filled for periods of approximately six weeks each by two substitute teachers—Elizabeth Wilkins, a New Hampshire University student, and Louise E. Blake, a graduate of Plymouth Normal School. Following the Thanksgiving recess, Beatrice L. Salls, a 1928 graduate of Plymouth and last year a teacher in Candia, accepted the position as permanent teacher.

Buildings and Equipment

In addition to the seasonal cleaning of school rooms and the oiling of floors, the interior walls of the Parade school room were repaired and repainted. The interior of the Parade building and its equipment now meets the highest standard of any school building in town. During the summer the outside of the Pond school house was repainted. By the relocation of the windows in the sides and the addition of two windows in the rear, the school room at West Deerfield has been adequately lighted and made much more attractive.

At both the Center and Pond schools provision should be made before another year to jacket the present stoves and obtain better indirect ventilation of the rooms. The latter may be readily secured by a fresh-air inlet flue to the stove jacket and the insertion of a foul-air exit flue at the base of chimney. Both of these schools should be equipped eventually with individual chairs and desks similar to those now in use at the Parade school. These are essential to the physical welfare and comfort of the pupils.

Health Activities

Deerfield and the other four towns of this Union are fortunate to retain the services of Margaret E. Cronin, R.N., for the

entire period of the present school year. Her report for the six months ending June 30, 1929, follows.

Number of Deerfield pupils under the supervision of nurse 85

At a vaccination clinic conducted at the Town Hall, June 18, sixteen pupils were treated. At a clinic for underweight children five pupils were examined by Dr. Kerr, six were examined by Dr. Rogers.

Signed, MARGARET E. CRONIN, R.N.
School Nurse.

Report dated June 29, 1929.

In addition to the visits to schools, recorded in the Table of Statistics for 1928-1929, there should be added fifty visits to pupils' homes, which constitute a particularly effective feature of the nurse's work in securing corrective treatments.

More and more throughout our state and nation is health supervision by trained nurses being recognized as one of the most important factors in development for citizenship. Correct dental and throat conditions are of major importance in the child's prospect of physical health and mental efficiency.

In Conclusion

I wish to commend the conscientious service being rendered by your teachers, and would bespeak for them the hearty cooperation of your Board and the community.

Respectfully submitted,

GEO. H. HARMON,
Superintendent of Schools.
